

2018 Immunology day
Innate immunity in health and disease
FNRS-Immunology Doctoral School

28/05/2018
Campus Sart Tilman, Liège

**2018 Immunology day
FNRS-Immunology Doctoral School**

**Program
« Innate immunity in health and disease »**

8:30 - 9:15 Registration and welcome coffee / refreshments
9:10 - 9:15 Welcome by Nathalie Jacobs, spokesperson of the Immunology doctoral school

First session

Invited guest lecture

9:15 - 10:00 Adrian Hayday (King's College London, Francis Crick Institute, London): "Seeing double: the local T cell surveillance of tissue status"

Selected short talks

10:00 - 10:45 3 presentations selected from abstract

10:45 - 11:00 Coffee break

Second session

Lecture:

11:00 - 11:45 Jo van Ginderachter (VUB): "The CCL8-CCR8 axis in regulating the immune suppressive microenvironment in cancer"

Platinum sponsor short talk

11:45 - 12:00 Sanbio

Selected short talks

12:00 - 12:30 2 presentations selected from abstract

12:30 - 14:30 Lunch and poster viewing/selection

Third session

Invited guest lecture

14:30 - 15:15 Leo Koenderman (University Medical Center, Utrecht): "*Kinetics of granulocytes: different phenotypes at different tissue locations*"

Selected short talks

15:15 - 15:45 2 presentations selected from abstract

Platinum sponsor short talk

15:45 - 16:00 SynAbs

lecture

16:00 - 16:45 Hamida Hammad (UGent): "Innate cells in Th2 immunity to house dust mite"

16:45 - 17:00 PhD presentation award and end of the meeting
